Education

Bachelor of Science

09/2021 – 06/2024

Constructor University — Bremen, Germany

- Major in Industrial Engineering and Management.
- Thesis: *"Investigating the capabilities of social media analytics for understanding the consumers' perception over environmental sustainability regulation."*

Experience

Digital Transformation – Reporting and Analysis

11/2025 – Current

Allianz SE Group Compliance — Munich, Germany

- Automation of data collection and data cleaning process using Python script for MI reporting and AI tool.
- Preparation of data sets for training set for AI.
- Led the preparation and coordination of key regulatory reports (Annual, Interim, SFCR, RSR), ensuring compliance with international standards.
- Utilized MS PowerBI, Excel and Python for comprehensive data analysis, creating dashboards and reports that informed strategic decision making.
- Conducted quality assurance on data from 58+ operational entities, ensuring accuracy and adherence to Allianz's corporate standards.
- Assisted in automating reporting processes using AI and specialized tools, enhancing operational efficiency and streamlining workflows.
- Facilitated cross-entity collaboration with project managers and compliance officers, supporting strategic presentations for executive boards.
- Provided PMO support for global initiatives, including timeline tracking and logistics coordination, contributing to project success.
- Contributed to the development of KPIs and KRIs.

Global Program Purchasing Trainee

02/2025 – 09/2025

Forvia — Munich, Germany

- Collected, validated, and analyzed data from regional purchasing teams to support sourcing strategies and enhance decision-making processes.
- Developed and maintained dynamic dashboards in Power BI, providing real-time visibility into key purchasing KPIs and performance trends.
- Actively collaborated on SNC (Supplier Nomination Committee) and SSR (Sourcing Strategy Review) processes to assess, evaluate, and finalize supplier selections.
- Reviewed and revised existing Faurecia Core Procedures (FCPs) related to Program Purchasing, ensuring alignment with updated business requirements.
- Engaged with cross-functional and international teams, including GPS, to support daily operations and drive consistency across program purchasing activities.

Project Management Internship

08/2023 – 07/2024

Allianz Germany (IDS) — Munich, Germany

- Created and managed multiple advanced Excel files for financial analysis, budgeting, and forecasting, and developed professional PowerPoint presentations for workshops, delivering insights to various Allianz operational entities and board members.
- Led KPI analysis and performance reporting, helping with keeping track of the project.
- Enhanced project tracking through tools like Jira and Confluence, improving project efficiency in a multinational team; created a project timeline using Microsoft Project.
- Provided expertise in event management, organising large corporate stakeholder meetings and workshops.
- Utilized SAP for budgeting and financial forecasting, contributing to accurate annual budget preparation.
- Used SQL to maintain and extract data from databases for analysis.
- Contributed to the implementation of ESG due diligence regulations, ensuring compliance with sustainability standards and enhancing corporate governance.

Projects

Machine Learning — Jacobs University Bremen

- Developed a machine learning model to predict asset failures, increasing prediction accuracy by 25% and reducing maintenance costs by 15%.
- Created a Power BI dashboard to visualize prediction results, incorporating DAX for dynamic data analysis. Applied natural language processing techniques to analyze maintenance logs, improving predictive model accuracy.
